Allowable Subject Matter

3. Claims 1-20 and 38-55 allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record neither teaches nor suggests the process of having a user create a semantic taxonomy tree which relates to search intent information (e.g. keywords/search terms and desired results) for *each* search a user wished to perform in combination with all of the other claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
